

## Product Overview

Carnivale Colour Fusion mixes are pre-blended combinations of different types of rubber granules, providing effective and easy multicolour options. Pre-blended mixes consist of three ranges, Berry, Vista and Shade. Berry mixes are made up of EPDM and CSBR, Vista mixes are all CSBR, and Shade mixes are CSBR and black SBR. Carnivale colours are like no other, being the only factory colour blend available, and providing colour consistency with up to 900m<sup>2</sup> batches possible.

## Specifications

Range	Composition	Approx Coverage	Particle Sizes	Pack Size
Berry	50% CSBR, 50% Opal EPDM	1.5m <sup>2</sup> at 15mm on flat subbase	1-4mm	20kg
Vista	100% CSBR	1.7m <sup>2</sup> at 15mm on flat subbase	1-4mm	20kg
