

DATA SHEET

Effective February 25, 2026

Product Overview

Rubber Mulch provides an attractive, long lasting and virtually maintenance free covering for landscape and garden areas in any residential and commercial development. Rubber Mulch is made from 100% pre-coloured recycled rubber and it looks just like real wood splinters.

Rubber Mulch is safe and helps conserve moisture in the soil around the roots of flowering plants and shrubs, significantly reducing water use. This combined with helping to find a use for used car tyres makes this product very environmentally friendly.

Rubber Mulch does not deteriorate from water absorption, decay, blow away or float away in heavy rain. Rubber Mulch reduces weed growth and allows water and nutrients to permeate but does not provide a medium for weed seeds or a food source for insects or termites.

Rubber Mulch is made in fade resistant colours and will retain its “wood” look year after year.

Specifications

Material 100% recycled rubber tyres

Colour Brick Red, Bush Bark

Bag Weight 25kg

Spread 500kg per cubic metre

Note: Option to bind with 10% Procure by weight if this is a specific site requirement.

Applications

Landscape and garden areas.

Disclaimer

The above information is derived from periodic tests taken on actual product from the manufacturing process. Some variances in specifications and raw surface appearances are possible due to the use of recycled materials and our manufacturing tolerances. In practice, the difference in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The recommendation relating to the application and end use of A1 Rubbers products, are given in good faith, based on A1 Rubbers current knowledge and experience of the product when properly stored, handled and applied under normal conditions in accordance with A1 Rubbers recommendations. The user of the product must test the product's suitability for intended application and purpose. A1 Rubber reserves the right to change the properties and tolerances of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current Terms and Conditions of Sales and delivery. Users must refer to the most recent issue of the Technical Data Sheet for the product concerned, copies of which will be supplied on request.
